### Professional Summary

An active Information Systems student with a solid combination of logistics administration experience and technical IT proficiency. Proven track record in managing inventory data, tracking operational documentation, and executing precise warehouse administration. Skilled in database management (DBeaver, PostgreSQL, MySQL) and core programming languages (HTML, CSS, Python, JavaScript, PHP) to drive data processing efficiency. Ready to contribute professionally to IT Support, IT Admin, Office Administration, or Purchasing Admin roles.

### Work Experience

#### PT. Altindo Mulia

Warehouse Admin | August 2023 – March 2024

- Accurately managed inbound and outbound inventory records to ensure seamless supply chain operations.
- Formulated and organized logistics documentation while actively collaborating with the warehouse team to minimize stock discrepancies.
- Conducted regular stock takes (*stock opname*) to verify product availability and compiled comprehensive reports for upper management.

#### PT. Altindo Mulia

Warehouse Operator | November 2022 – August 2023

- Organized and ensured systematic storage placement within the warehouse area to optimize distribution readiness.
- Performed physical verifications and logged incoming and outgoing goods in strict compliance with standard operating procedures (SOP).

#### PT. Tri Adi Bersama

Logistics Courier | April 2021 – June 2022

- Held full accountability for delivering operational documents and goods to target destinations safely and on schedul.
- Inspected and double-checked cargo validity and eligibility prior to the delivery execution.
- Melakukan inspeksi dan pengecekan ulang terhadap kelayakan barang sebelum proses pengantaran dilakukan.
